SUMMARY

Detail-oriented Data Analyst with a Post Graduate Diploma in Big Data Analytics (AI & ML) from CDAC and a B.Tech in Computer Science Engineering. Skilled in SQL, Excel, Python, and Power BI/Tableau, with hands-on experience in data cleaning, exploratory data analysis, statistical analysis, and dashboard reporting that supports business decision-making. Proven ability to translate raw operational data into clear, actionable insights for cross-functional stakeholders. GATE 2025 qualifier with strong analytical and problem-solving skills, seeking to drive data-informed decisions in a Data Analyst role.

EDUCATION

Post Graduate Diploma in Big Data Analytics (AI & ML)

Percentage: 86.88%

CDAC – Centre for Development of Advanced Computing, Pune

Aug 2025 – Feb 2026

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.54

Heritage Institute of Technology, Kolkata

Aug 2021 – Jun 2025

EXPERIENCE

Graduate Engineer Trainee – Data Analyst

Mar 2026 – Aug 2026

SINCLUS Engineering & Consulting Pvt. Ltd. (BPCL Project)

Mumbai, India

- Queried and consolidated operational data from multiple source systems using SQL, reducing manual reporting turnaround by an estimated 30% for the analytics team.
- Performed statistical analysis and exploratory data analysis (EDA) on production datasets to identify trends and anomalies, supporting weekly business review decisions.
- Built and maintained Power BI dashboards tracking 10+ key operational metrics, improving visibility for cross-functional stakeholders across 3 departments.
- Automated recurring data extraction and cleaning workflows in Python and Excel, cutting manual processing time and reducing reporting errors.
- Partnered with cross-functional teams to translate business requirements into analytical deliverables, presenting findings to senior stakeholders.

SKILLS

Data Analysis & Reporting: SQL, Excel (Advanced), Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Reporting, Dashboard Design

Programming: Python, Pandas, NumPy

Data Visualization & BI: Power BI, Tableau, Matplotlib, Seaborn

Statistics: Statistical Analysis, Hypothesis Testing, A/B Testing, Statsmodels

Databases: MySQL, SQL Joins, Aggregations, Window Functions, Data Warehousing, ETL Pipelines

Machine Learning: Scikit-learn, Regression, Classification, Feature Engineering, Model Evaluation, Cross-Validation, Ensemble Learning (Random Forest, XGBoost, LightGBM)

Big Data Tools: Apache Spark, PySpark, Hadoop, Hive

Deep Learning & AI: TensorFlow, Keras, CNNs

Generative AI: LLMs, Prompt Engineering, Retrieval-Augmented Generation (RAG)

Cloud & Tools: AWS EC2, AWS S3, Linux, Docker, Git, GitHub, VS Code, JupyterLab

PROJECTS

Customer Behavior Analysis | *Python, SQL, Pandas, Power BI*

May 2026

- Built an end-to-end analytics pipeline covering data cleaning, SQL-based business analysis, Power BI dashboarding, and GitHub project deployment.
- Analyzed retail customer purchasing behavior across 10,000+ transaction records to uncover insights for improving revenue, retention, and marketing strategy.
- Cleaned and preprocessed raw data using Python and Pandas, handling missing values and standardizing formats to ensure accuracy for SQL-based analysis.
- Performed customer segmentation and revenue analysis using SQL aggregations, joins, and window functions, identifying top 20% of customers driving majority of revenue.
- Evaluated discount impact, subscription trends, and shipping preferences via Power BI dashboards, surfacing 3 actionable recommendations for the marketing team.

Air Quality Forecasting System | *Python, Pandas, Scikit-learn, LightGBM, XGBoost, Tableau, AWS EC2*

Jan 2026

- Performed end-to-end exploratory data analysis (EDA) on air quality datasets to identify trends, seasonal patterns, and key pollutant correlations driving AQI fluctuations.
- Engineered time-series features and applied statistical modeling using Pandas and Statsmodels to prepare data for multi-hour AQI forecasting.
- Built and evaluated predictive models using LightGBM and XGBoost with cross-validation, achieving R^2 of 0.89 across multiple pollutant types.
- Developed an interactive Streamlit dashboard deployed on AWS EC2, enabling users to upload data, visualize AQI trends, and explore multi-hour predictions in real time.

CERTIFICATIONS & ACADEMIC HIGHLIGHTS

CDAC PG Diploma in Big Data Analytics (AI & ML) – 86.88%

Feb 2026

GATE 2025 – Computer Science and Engineering (Qualified)

Mar 2025

Microsoft Excel: Basic to Advanced

2026

EXTRACURRICULAR ACTIVITIES

National Service Scheme (NSS)

Aug 2021 – Jun 2025

Coordinator – Heritage Institute of Technology, Kolkata

- Led campus and community awareness drives; coordinated educational support programs in local schools in Kolkata, benefiting 100+ students over 4 years.
